

A view from an airplane window showing the wing and clouds.

BÖLLHOFF

INVITATION

Aircraft Interiors Expo
2018

HELICOIL® Thread Technology

Wire thread inserts for high-strength fastenings.

Your benefits at a glance

- High thread loading
- Increased quality and value
- Wear-resistant
- Corrosion and temperature resistant

RIVKLE® Blind rivet nuts

Resilient threads on thin-walled components.

SNAPLOC® Plug-in connections

Decoupling of vibration and noises.

ONSERT® Technology

Quick and process-reliable bonding of fastening elements with light-curing adhesives.

Your benefits at a glance

- Attractive appearance
- Immediate load capacity
- Independent processing parameters
- Short curing times

AMTEC® Thread inserts

Secure and low-stress anchoring of thread inserts in plastic parts.

RIVQUICK® Blind rivets

Strong and high-strength joints of metal or plastic components.

We are looking
forward to
meeting you at

→ **Hall 6 / Stand C125**
